

The last in the series of CNY PCA Tech Sessions this year will round out our coverage of all Porsche models. That is to say that Cantech Automotive, in addition to showcasing its progressive facility and equipment, and hosting a lunch for us, will focus attention on the newer water-cooled Porsches and have a Boxster on display for our viewing pleasure-see details below. Plan to join us for this interesting and informative event.

CANTECH AUTOMOTIVE OPEN HOUSE & TECH SESSION

Saturday, June 27th 10am 'till 2 pm

The folks at Cantech Automotive, 6267 E. Taft Road in North Syracuse are sponsoring an Open House, Tech Session and Luncheon for Central New York Porsche Club members on Saturday June 27th.

There will be demonstrations on wheel alignments, Road Force wheel balancing and damage-free tire changing, plus tips from the mechanics at Cantech. There also will be time for a one-on-one, ask-the-mechanic question and answer period.

Cantech will provide in depth insight into Porsche water-cooled vehicles which will nicely compliment our previous 2009 Tech Sessions. They will have a Boxster S on display with all its engine service panels removed allowing guests to view the complete Boxster power train. Questions will be welcomed!

This Open House is geared to both technical and non-technical Porsche owners. It is a great opportunity to ask any mechanical car questions you might have.

Specializing in European autos, Cantech Automotive is a long-time CNY PCA supporter and advertiser in Redline Report. They are the premier import and domestic service and repair facility Central New York. An authorized Bosch Service Center, Cantech Automotive opened its doors in 1993 and is currently a 10,000 square foot facility with ten work stations.

They offer a wide range of services for American, European and Asian cars trucks and SUVs. Their highly skilled Master Certified technicians, who receive regular factory training on Bosch automotive systems, utilize the latest technology and equipment to provide sound assistance with every facet of vehicle ownership.

Whether you drive a Ford or a Ferrari, the service consultants at Cantech Automotive will focus on all of your vehicle's needs to ensure that it is serviced and repaired to the highest standards. Their attention to detail and their commitment to "fix it right the first time" will help you maintain your vehicle's integrity and enhance the quality of your investment.
